

SUNNYMEAD

CATTERY & KENNELS

Checklist

Once you have booked in your pet make sure you have the following:

PET NAME:

STAY DATE:

MEDICATION? (list below with amount & time)

SPECIAL DIET? (list below with amount & time)

VACINATION DOCUMENTS (see below for lists)
MUST HAVE BEEN 2 WEEKS PRIOR TO STAY

DOG VACCINATIONS

All dogs must have a full and up to date vaccination record to be shown on first visit and details of their registered vet. All dogs must be fully inoculated against Distemper, Hepatitis, Paravirus, Para Influenza, and Leptospirosis and must have had a booster injection within the previous 12 months. Canine Infectious Bronchitis (Kennel Cough)

We like all our customers to have had their dog inoculated against canine infectious bronchitis. We suggest you discuss this matter with your veterinary surgeon as this is caused by complex virus/bacteria only some of which respond to vaccination.

CAT VACCINATIONS

Cats must be fully inoculated against feline leukaemia, Feline infectious enteritis, Feline viral rhinotracheitis (Feline herpes virus) and Feline calicivirus, and must have had a booster injection with the previous twelve months.

A HOME AWAY FROM HOME
